EASEMENT

THIS EASEMENT (this "Easement") is made this 15th day of December, 2005, by and between **P.G.L.C., LLC, a Utah limited liability company** ("Grantor"), whose address is 2025 Mahre Drive, Park City, Utah 84098, and **Global Signal Acquisitions LLC, a Delaware limited liability company** ("Grantee"), whose address is 301 North Cattlemen Road, Suite 300, Sarasota, Florida 34232.

Recitals

Grantor is the owner of the real property described in Exhibit A attached hereto (the "Grantor Property"). Grantee has requested Grantor to grant the easement described below for the purposes consistent with the ownership, location and operation of one or more communications towers, including but not limited to installing, operating, and maintaining communications towers, guy wires and guy wire anchors, ingress and egress for the same, and all other related general and miscellaneous uses, including without limitation the operation of a tower rental business on a portion of the Grantor Property, all as described more fully below. Grantor has agreed to Grantee's request upon the terms and conditions of this Easement

Terms

In consideration of the premises, the sum of $10.00, and other good and valuable considerations, the receipt and sufficiency of which the parties hereby acknowledge, Grantor and Grantee hereby agree as follows:

1. Grant of Easement. Grantor for itself, its successors and assigns, hereby grants and conveys unto Grantee, its lessees, licensees, successors and assigns a fully paid exclusive, perpetual easement on, over, across and through the portion of the Grantor Property described in Exhibit B attached hereto (the "Tower Area") together with a fully paid nonexclusive perpetual easement over the portion of the Grantor Property described in Exhibit C (the "Access and/or Utility Areas") for all purposes consistent with the ownership, location and operation of communications towers, including but not limited to erecting, installing, operating,, maintaining, repairing, replacing, rebuilding, altering, inspecting, improving, and removing communications towers, ground connections, buildings, equipment, equipment shelters and other ancillary structures, and all fixtures, attachments, equipment and accessories related thereto, and for ingress and egress and utility access for the same, and all other related general and miscellaneous uses.

2. Use. The Tower Area shall be used for the purpose of, without limitation, erecting, installing, operating and maintaining radio and communications towers, buildings, and equipment, including leasing, subleasing, and licensing space thereon to third parties. Grantee may make any improvement, alteration or modifications to the Tower Area and Access and/or Utility Areas as are deemed appropriate by Grantee, in its discretion. At all times during the

Term of the Easement, Grantee shall have the right to use, and shall have free access to, the Tower Area and Access and/or Utility Areas seven (7) days a week, twenty-four (24) hours a day. Grantee shall have the exclusive right to lease, sublease, license, or sublicense any radio/communications tower or any other structure or equipment on the Tower Area and Access and/or Utility Areas, and shall also have the exclusive right to lease or sublease to third parties any portion of the Tower Area and Access and/or Utility Areas, itself, but no such lease, sublease or license shall relieve or release Grantee from its obligations under this Easement. Grantee and its customers shall have the right to erect, install, maintain, and operate on the Tower Area and Access and/or Utility Areas such equipment, structures, fixtures, signs, and personal property as Grantee may deem necessary or appropriate, and such property, including the equipment, structures, fixtures, signs, and personal property currently on the Tower Area, shall not be deemed to be part of the Tower Area, but shall remain the property of Grantee or its customers, as applicable. At any time, Grantee or its customers shall have the right to remove their equipment, structures, fixtures, signs, and personal property from the Tower Area and Access and/or Utility Areas.

3. Duration. The duration of the Easement granted herein (the "Term") shall be perpetual, unless Grantee provides written, recordable notice of its intent to terminate this Easement, in which event this Easement shall terminate upon Grantee's recordation of any such notice. However, in the event Grantee, its successors and/or assigns, removes all of the communications tower(s) which is/are the subject of this Easement, and fails to initiate the reconstruction of a replacement tower within 365 days from the date of removal of the last such tower, this Easement shall automatically terminate.

4. Easement Consideration. Grantor hereby acknowledges the receipt, in advance, of all consideration due hereunder. Accordingly, no additional consideration shall be due during the term of this Easement.

5. Private Easement. Nothing in this Easement shall be deemed to be a dedication of any area for public use. All rights, easements and interests herein created are private and do not constitute a grant for public use or benefit.

6. Assignment. Grantee may assign its rights hereunder in whole or in part to any person or entity without notice to or consent from Grantor. After delivery by Grantee to Grantor of an instrument of assumption by an assignee that assumes all of the obligations of Grantee under this Easement, Grantee will be relieved of all liability hereunder.

7. Warranties and Agreements.

(a) Grantor represents and warrants that it is the owner in fee simple of the Grantor Property, free and clear of all liens and encumbrances, and that it alone has full right to grant the Easements. Grantor further represents and warrants that Grantee shall peaceably and quietly hold and enjoy the easement rights without any hindrance, molestation or ejection by Grantor, its successors or assigns, or those claiming through them. Grantor shall have no right to use or permit to be used the Grantor Property in any manner that is inconsistent with Grantee's rights hereunder.

(b) Grantor covenants and agrees that it will not grant, create, or suffer any claim, lien, encumbrance, easement, restrictions, or other charge or exception to title to the

Grantor Property without the prior written consent of Grantee; provided, however, that it is expressly agreed and understood that Grantor may subject its interest in the Grantor Property to a first mortgage loan if its lender shall agree for itself, its successors and assigns, by written instrument in form and substance reasonably satisfactory to Grantee: (1) to be bound by the terms of this Easement; (2) not to disturb Grantee's use or possession of the Tower Area and Access and/or Utility Areas in the event of a foreclosure of such lien or encumbrance; and (3) not to join Grantee as a party defendant in any such foreclosure proceeding taken by it.

(c) Grantor shall not cause or permit the construction of radio or communications towers on the Grantor Property or on any other property of Grantor adjacent to or in the immediate vicinity of the Grantor Property, except for towers constructed by Grantee, its successors and assigns.

(d) Grantor shall promptly pay all real estate taxes and assessments against the Grantor Property when due and shall avoid any delinquencies with respect thereto. If Grantor fails to make any such payments Grantee may (without obligation), after providing ten (10) days written notice to Grantor, make such payment or perform such obligation on behalf of Grantor. The full amount of any payments so made or costs so incurred by Grantee (including any attorneys' fees incurred in connection with Grantee performing such obligation) shall be paid by Grantor to Grantee with interest at the statutory rate thereon.

(e) Grantor shall not do or permit anything that will interfere with or negate any special use permit or approval pertaining to the Grantor Property or cause any tower on the Grantor Property to be in nonconformance with applicable local, state, or federal laws.

(f) Grantor shall not initiate or consent to any change in the zoning of the Grantor Property or any property of Grantor contiguous to, surrounding, or in the vicinity of the Grantor Property, or impose or consent to any other restriction that would prevent or limit Grantee from using the Grantor Property for the uses intended by Grantee.

(g) Grantor shall cooperate with Grantee in any effort by Grantee to obtain certificates, permits, licenses, and other approvals that may be required by any governmental authorities. Grantor agrees to execute any necessary applications, consents or other documents as reasonably necessary for Grantee to apply for and obtain the proper zoning approvals required to use and maintain the Grantor Property as a communications tower site.

(h) Grantor has complied with all environmental, health, and safety laws with respect to the Grantor Property, and no action, suit, proceeding, hearing, investigation, charge, complaint, claim, demand, or notice has been filed or commenced against Grantor or regarding the Grantor Property alleging any failure so to comply. Without limiting the generality of the preceding sentence, Grantor and the Grantor Property are in compliance with all environmental, health, and safety laws. No asbestos-containing thermal insulation or products containing PCB, formaldehyde, chlordane, or heptachlor or other hazardous materials have been placed on or in the Grantor Property by Grantor or, to the knowledge of Grantor, by any prior owner or user of the Grantor Property. To the knowledge of Grantor, there has been no release of or contamination by hazardous materials on the Grantor Property.

(i) All buildings and improvements located on the Grantor Property are in compliance with all applicable laws. All such property, including without limitation

improvements, related heating, electrical, plumbing, and other building equipment have been maintained in accordance with normal industry practice, are in working order adequate for normal operations, are in good operating condition and repair (subject to normal wear and tear), and are suitable for the purposes for which they presently are used. All utilities required for the operation of the improvements enter the Grantor Property through adjoining public streets or, if they pass through an adjoining private tract, do so in accordance with valid public easements. All utilities are installed and operating and all installation and connection charges have been paid in full.

(j) Grantor hereby covenants and represents that with respect to the Tower Area and Access and/or Utility Areas: (i) there currently exist no leases, subleases, licenses, management agreements, concessions or other agreements, written or oral, granting to any party or parties the right of use, management, or occupancy of any portion of the of Tower Area and Access and/or Utility Areas, other than leases disclosed to Grantee in writing; (ii) there are no outstanding options or rights of first refusal to purchase the Grantor Property or any portion thereof or interest therein; and (iii) there are no parties (other than Grantor and lessees disclosed to Grantee in writing) in possession of the Tower Area and Access and/or Utility Areas.

(k) Grantor has no knowledge of any fact or condition that could result in the termination or reduction of the current access from the Grantor Property to existing highways and roads, or to sewer or other utility services serving the Grantor Property. The Grantor Property abuts on and has direct vehicular access to a public road, or has access to a public road via a permanent, irrevocable, appurtenant easement benefiting the parcel of real property, and access to the property is provided by paved public right-of-way with adequate curb cuts available.

(l) The legal description for the Grantor Property attached as Exhibit A describes the Grantor Property fully and adequately, and any improvements are located within the boundary lines of the described parcels of land, are not in violation of applicable setback requirements, zoning laws, and ordinances (and none of the properties or buildings or improvements thereon are subject to "permitted non-conforming structure" or similar classifications), and do not encroach on any easement that may burden the land, and the land does not serve any adjoining property for any purpose inconsistent with the use of the land, and the property is not located within any flood plain or subject to any similar type restriction for which any permits or licenses necessary to the use thereof have not been obtained.

(m) During the Term of the Easement, Grantor covenants and agrees that it may not, and shall not, subdivide any master tract of which the Grantor Property is a part without first seeking Grantee's written approval, which approval shall not be unreasonably withheld. Grantee's consent may be withheld if any such subdivision will adversely affect the Grantor Property's compliance (including any improvements located thereon) with applicable laws, rules, ordinances and/or zoning, or otherwise adversely affects Grantee's ability to utilize the Grantor Property for its intended purposes.

(n) Grantee hereby covenants and agrees that it shall comply with all applicable laws, rules, regulations, and ordinances with respect to its use of the Tower Area and Access and/or Utility Areas.

8. Right of First Refusal. If Grantor shall have received a bona fide arm's length offer to purchase all or any portion of the Grantor Property (including without limitation the Tower Area) from any third party (the "Transferee"), the Grantor shall serve a notice (the "Transfer Notice") upon the Grantee. The Transfer Notice shall set forth the exact terms of the offer so received, together with a copy of such offer, and shall state the desire of the Grantor to sell the Easement Property (or the applicable portion thereof) on such terms and conditions. Thereafter, the Grantee shall have the right and option to purchase the Easement Property (or the applicable portion thereof) at a price and upon the terms and conditions specified in the offer (the "Offer"). If the Grantee desires to exercise its option, it shall give notice (the "Counternotice") to that effect to the Grantor within thirty (30) days after receipt of the Transfer Notice. The closing of the purchase and sale of the Easement Property (or the applicable portion thereof) pursuant to this option shall occur at the time set forth in the Offer, provided that Grantee shall not be required to close before the 15th day following the date of the Counternotice. The Grantee's failure to give a timely Counternotice (or its notice of refusal to purchase) shall be deemed a waiver of its rights to exercise its right of first refusal to accept the Offer but shall not be deemed a waiver of its right of first refusal with respect to any modification to the Offer or any future Offers.

9. Non-Disturbance. During the Term of the Easement, Grantor will not grant any other easement, ground lease, or other similar interest upon or within any property including or adjacent to the Grantor Property, for any of the uses contemplated herein, and Grantor will not grant any other easement or ground lease to any party if such easement or ground lease would in any way effect or interfere with Grantee's radio/communications equipment and/or antennas.

10. Signal Blockage and/or Transmission Interruption. Grantee is utilizing the Grantor Property for the purpose of transmitting and receiving telecommunication signals to and from the Grantor Property. Grantee and Grantor recognize that the purpose behind the Easement would be frustrated if the telecommunication signals were partially or totally blocked or if an obstruction were built that would cause interference with such transmission. Grantor, its successors and assigns, shall use its best efforts to prevent the occurrence of any of the foregoing upon or within any property owned by, or otherwise under the control of Grantor, and shall promptly undertake any remedial action necessary to do so.

11. Lenders' Continuation Rights.

(a) Grantor consents to the granting by Grantee of a lien and security interest in Grantee's interest in this Easement and all of Grantee's personal property and fixtures attached to the Tower Area and Access and/or Utility Areas described herein, and furthermore consents to the exercise by Grantee's mortgagee of its rights of foreclosure with respect to its lien and security interest. Grantor agrees to recognize Grantee's mortgagee as Grantee hereunder upon any such exercise by Grantee's mortgagee of its rights of foreclosure.

(b) Grantor hereby agrees to give Grantee's mortgagee written notice of any breach or default of the terms of this Easement within fifteen (15) days after the occurrence thereof at such address as is specified by Grantee's mortgagee. Grantor further agrees that no default under this Easement shall be deemed to have occurred unless such notice to Grantee's mortgagee is also given and that, in the event of any such breach or default under the terms of the Easement, Grantee's mortgagee shall have the right, to the same extent, for the same period and

with the same effect, as the Grantee plus an additional ninety (90) days after any applicable grace period to cure or correct any such default whether the same shall consist of the failure to pay rent or the failure to perform, and Grantor agrees to accept such payment or performance on the part of the Grantee's mortgagee as though the same had been made or performed by the Grantee. Grantor agrees that it shall not exercise its right to terminate the Easement or any of its other rights under this Easement upon breach or default of the terms of this Easement without so affording Grantee's mortgagee the foregoing notice and periods to cure any default or breach under this Easement.

(c) Grantor hereby (i) agrees to subordinate any lien or security interest which it may have which arises by law or pursuant to the Easement to the lien and security interest of Grantee's mortgagee in the collateral securing all indebtedness at any time owed by Grantee to its mortgagee (the "Collateral"), and (ii) furthermore agrees that upon an event of default under the loan documents between Grantee and its mortgagee or this Easement, Grantee's mortgagee shall be fully entitled to exercise its rights against the Collateral prior to the exercise by the Grantor of any rights which it may have therein, including but not limited to entry upon the Tower Area and Access and/or Utility Areas and removal of the Collateral, free and clear of the Grantor's lien and security interest.

(d) Grantor acknowledges that nothing contained herein shall be deemed or construed to obligate the Grantee's mortgagee to take any action hereunder, or to perform or discharge any obligation, duty or liability of Grantee under this Easement.

12. Notice and Payments. Any notice, document or payment required or permitted to be delivered or remitted hereunder or by law shall be deemed to be delivered or remitted, whether actually received or not, when deposited in the United States mail, postage prepaid, certified or registered, return receipt requested, addressed to the parties hereto at the respective addresses set out below, or at such other address as they shall have theretofore specified by written notice delivered in accordance herewith:

Grantor:	P.G.L.C., LLC 2025 Mahre Drive Park City, UT 84098 Phone No.: (801) 414-3723
Grantee:	Global Signal Acquisitions LLC 301 N. Cattlemen Road, Suite 300 Sarasota, FL 34232 Attention: Legal Department Phone No.: (941) 364-8886 Fax No: (941) 364-8761

13. Force Majeure. The time for performance by Grantor or Grantee of any term, provision, or covenant of this Easement shall be deemed extended by time lost due to delays resulting from acts of God, strikes, civil riots, floods, labor or supply shortages, material or labor

restrictions by governmental authority, litigation, injunctions, lack of access to required utilities, and any other cause not within the control of Grantor or Grantee, as the case may be.

14. Rule Against Perpetuities. If the rule against perpetuities or any other rule of law would invalidate the Easement or any portion or provision hereof or would limit the time during which the entire Easement or any portion or provision thereof shall be effective due to the potential failure of an interest in property created therein to vest within a particular time, then each such interest in property shall be effective only from the date hereof until the passing of twenty (20) years after the death of the last survivor of the members of Congress of the United States of America (including the House of Representatives and the Senate) representing the state in which the Grantor Property is located who are serving on the date hereof, but each such interest in property shall be extinguished after such time, and all other interests in property created herein and all other provisions hereof shall remain valid and effective without modification.

15. Indemnities.

(a) Grantor's Indemnity. Grantor hereby indemnifies, holds harmless, and agrees to defend Grantee, and its officers, directors, shareholders, agents, employees, and attorneys, for, from, and against all damages asserted against or incurred by any of them by reason of, or resulting from: (i) the invalidity of, or a breach by Grantor of, any representation, warranty, or covenant of Grantor contained herein, (ii) any act or omission of Grantor, its agents, guests, licensees, and/or invitees, (iii) Grantor's authorized or unauthorized use of the Grantor Property, if any, or any property adjacent to the Grantor Property.

(b) Grantee's Indemnity. Grantee hereby indemnifies, holds harmless, and agrees to defend Grantor, and, if applicable, Grantor's officers, directors, shareholders, agents, employees, and attorneys, for, from, and against all damages asserted against or incurred by any of them by reason of, or resulting from: (i) the invalidity of, or a breach by Grantee of any representation, warranty, or covenant of Grantee contained herein, (ii) Grantee's occupation and use of the Grantor Property, provided that any such claim, damage, loss, or expense is caused in whole or in part by any negligent act or omission of the Grantee, its agents, guests, and/or invitees.

16. Governing Law/Remedies. This Easement, and the rights and obligations of the parties hereto, shall be governed by the law of the State where the Grantor Property is located. Grantor and Grantee shall be entitled to exercise any and all remedies available either at law or in equity, and the prevailing party shall have the right to recover damages and reasonable attorneys' fees and costs in connection with any legal proceeding arising from or based on this Easement, including appeal. If such prevailing party recovers a judgment in any such action, proceeding or appeal, such costs, expenses and attorney's fees and disbursements shall be included in and as a part of such judgment. Furthermore, Grantor acknowledges that a refusal by Grantor to consummate the transactions contemplated hereby will cause irrevocable harm to Grantee for which there may be no adequate remedy at law and for which the ascertainment of damages would be difficult. Therefore, Grantee shall be entitled, in addition to and without having to prove the inadequacy of other remedies at law, to specific performance of this Easement, as well as injunctive relief, without being required to post bond or other security.

17. Insurance. During the Term of the Easement, Grantee shall carry, at no cost to Grantor, adequate comprehensive liability insurance with limits of not less than $1,000,000.00. Grantor hereby agrees that Grantee may satisfy this requirement pursuant to master policies of insurance covering other locations of Grantee. Grantee shall provide evidence of such insurance to Grantor upon request.

18. Condemnation. If all of the Grantor Property (or if less than all, but Grantee reasonably determines that the remaining portion cannot be operated for the intended purposes), shall be acquired by the right of condemnation or eminent domain for any public or quasi public use or purpose, or sold to a condemning authority under threat of condemnation, then the Term of the Easement shall cease and terminate as of the date of title vesting in such proceeding (or sale). In the event of any condemnation, taking, or sale, whether in whole or part, Grantee and Grantor shall each be entitled to receive and retain such separate awards and portions of lump sum awards as may be allocated to their respective interests in any condemnation proceedings, or as may be otherwise agreed. Termination of this Easement shall not affect the right of the parties to such awards.

19. Taxes. During the Term of the Easement, Grantee shall pay all real and personal property taxes attributable to the Tower Area and Access and/or Utility Areas. Notwithstanding anything contained herein to the contrary, Grantee's obligation to pay such taxes is conditioned upon Grantor first causing the Tower Area and Access and/or Utility Areas to be separately assessed for tax purposes, if the Tower Area and Access and/or Utility Areas is not already separately assessed. In connection therewith, Grantor shall direct the applicable tax authority to submit the appropriate bill/invoice therefore directly to Grantee at the address identified herein. Beginning on the date the Tower Area and Access and/or Utility Areas is separately assessed for tax purposes, and continuing thereafter during the Term of the Easement, Grantee shall be responsible for all real and personal property taxes attributable to the Tower Area and Access and/or Utility Areas upon receipt of the appropriate bill/invoice.

20. Assignment of Ground Lease. Grantor and Grantee hereby recognize and agree that there is a certain Ground Lease dated May 18, 1998 between Grantor and Sprint Spectrum L.P., a Delaware limited partnership, as evidenced by the Memorandum of PCS Site Agreement dated May 18, 1998, as affected by the Agreement Regarding Ground Lease dated March 26, 2005. Grantor represents and warrants that (i) there are no existing defaults, events of default or events, occurrences, or acts that, with the giving of notice or lapse of time or both, would constitute a default by either Grantor or Lessee under the Ground Lease; and (ii) the monthly rent and all other sums due under the Ground Lease are fully paid and current. The parties hereto have executed an Assignment of Ground Lease contemporaneously with the execution of this Easement.

21. Shared Use. The parties hereby recognize that Grantee's use of portions of the Grantor Property shall be shared with others, including the Grantor, its successors and assigns. Notwithstanding the foregoing, Grantee may fence or otherwise enclose portions of the Tower Area and Access and/or Utility Areas, from time to time, in its discretion, which portions may not be utilized by Grantor or any other third party other than Grantee and Grantee's authorized users. Grantor hereby reserves the right to utilize portions of the Grantor Property not fenced or otherwise enclosed by Grantee from time to time for any purpose which is not inconsistent with Grantee's use of the Grantor Property. However, Grantee shall have no obligation to protect, maintain or safeguard same. Such responsibility shall remain with the

Grantor, and Grantor, for itself, its successors and assigns, hereby agrees to indemnify, defend, and hold harmless Grantee from and against any and all liabilities, claims, suits, demands, causes of action, or judgments, including reasonable attorneys' fees, arising out of, relating to, or otherwise pertaining to the Grantor Property, or Grantor's (or any third party's) use thereof, including, without limitation, any damage to Grantee's improvements, towers, antennae, dishes, or any injury to any guest, licensee, invitee, agent, or employee of the Grantor, or any other party (other than Grantee, its guests, agents, and invitees) utilizing the Grantor Property for any purpose whatsoever. Grantor hereby covenants and agrees that its use of portions of the Grantor Property not fenced or enclosed by Grantee will not interfere with Grantee's ownership, operation, and maintenance of the communications antennae, dishes, or related equipment located within the Grantor Property, and hereby agrees that Grantor will promptly undertake any remedial action necessary to remedy or prevent any such interference, failing which Grantee may undertake to do so, and deduct the cost thereof from any consideration due hereunder and/or charge Grantor for the full cost thereof. To the extent Grantor intends to add, replace, and/or supplement any equipment and/or other improvements now or hereafter to be located upon or within any portion of the Grantor Property, Grantor shall first seek Grantee's written approval thereof, which approval shall not be unreasonably withheld or delayed. Grantee may, however, withhold any such authorization if Grantor proposes to locate new equipment upon or within the Grantor Property (or supplement/replace existing equipment), the effect of which may have a detrimental impact upon any equipment (including the reception and/or transmission of signals therefrom) now or hereafter located upon or within the Grantor Property by Grantee or its customers.]

22. Other Utility Easement. To the extent that any public utility benefits the Tower Area and Access and Utility Area without valid easement, Grantor also grants and conveys unto Grantee, its tenants, licensees, successors, assigns, assignees, and sublessees, full, complete, uninterrupted and unconditional access to and from the Grantor Property, seven days a week, 24 hours a day, over and across the common areas of any other adjacent property now or hereafter owned by Grantor, for, without limitation, ingress and egress to and from the Grantor Property, as well as the installation, location, and maintenance of overhead and/or underground utility connections, including electric, telephone, gas, water, sewer, and any other utility connection. The rights conferred pursuant to this paragraph may be partially assigned by Grantee to any private or public utility authority to provide utilities to the Grantor Property, or to otherwise further effect this provision.

23. Binding Effect. This Easement shall be binding on and inure to the benefit of the parties hereto and their respective lessees, successors and assigns. It is the intention of the parties hereto that all of the various rights, obligations, and easements created in this Easement shall run with the affected lands and shall inure to the benefit of and be binding upon all future owners and lessees of the affected lands and all persons claiming under them. .

24. Modification. This Easement may not be amended or modified except by a written instrument signed by each of the parties hereto.

25. Non-Waiver. The failure of either party to insist upon compliance by the other party with any obligation, or exercise of any remedy, does not waive the right to do so in the event of a continuing or subsequent delinquency or default. A party's waiver of one or more defaults hereunder does not constitute a waiver of any other delinquency or default.

26. Counterparts. This Easement may be executed in counterparts, each of which shall be deemed an original and all of which together shall constitute one instrument.

27. Recording. This Easement shall be recorded upon the request of the Grantor or Grantee.

IN WITNESS WHEREOF, Grantor and Grantee have executed this Easement on the date first written above.
